# ACO BATTERY

Ashja Battery Manufacturing and Trading Group

## We are committed

### Since: 1982

ACO battery industrial group, with more than 40 years brilliant experiences in battery industry, has started activity since 1982 as a commercial company and then as an agent of Iranian battery manufacturer in all regions of Iran.

The activity of this group continued until 2010, and in this year has established the ASHJA commercial company. Since this year, the extensive activity in battery distribution led to recognition as an agent with exclusive brand of the domestic and foreign battery manufacturer. As well, with considering to decrease in battery supply, attended direction corporation with the foreign battery manufacturer from Turkey, Ukraine and Korea and under the exclusive brand.

ACO battery's extensive activity since 2013 included all of regions in Iran, and ACO's agents and wholesalers in all of regions started to distribution of batteries. This ACO battery's strategy, caused to become the largest battery distributor in Iran since 2013 to 2018.

Since 2017, considering to national requirements and international conditions, construction of automotive battery manufacturing factory was performed after scientific and technical reviews, and in 2018, operation of automotive battery manufacturer was done.

In the first phase, production of plates with expanded metal technology tested successfully and started operational production. In the second phase since 2019, operated all of the levels of production chain include recycling, plates creation, assembling and battery charging. As well since 2023, battery covers and top covers has created in TINOO PLAST factory that is related to ACO battery industrial group.

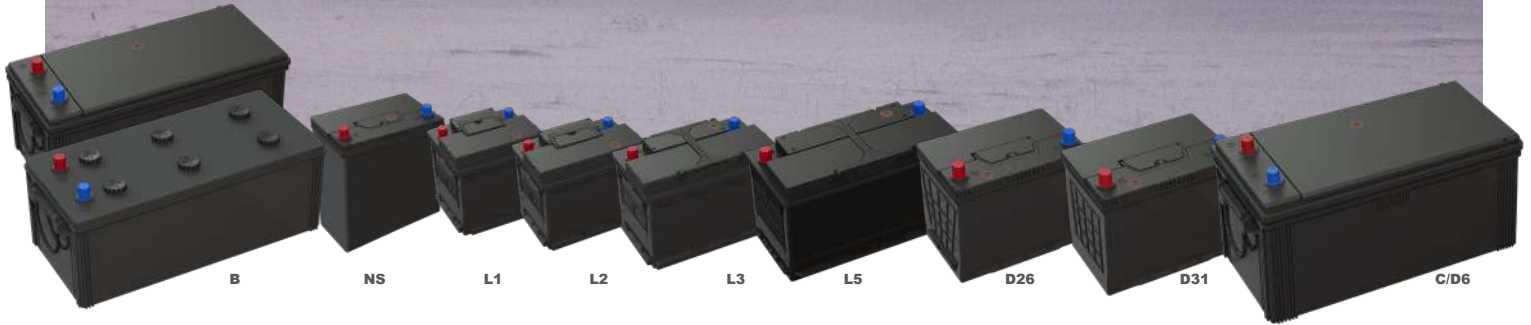

At the moment, variety of Amps in the ACO battery, include 35 to 225 A/h and under the TINOO, CARPILE, HIPILE brands, and other new brand that released recently is HANDEL that equipped with the new technology and technical design with 21 months guarantee. Our slogan is 'we are committed' and according with this slogan, following international standards in both technical and production point is our main responsibility.

Since 2020, accordance with the investigations on industrial battery market and due to the research by ACO battery's R&D sector, and utilization of the advanced technology in the world, ACO battery started to manufacture of UPS batteries under ZICO and UFO brands, and in 2023, recognized as the first knowledge-based manufacturer in battery industry in Iran. As well, access to exemplary industrial factory award and national quality award as other ACO battery's achievements.

According to planning and consider to domestic market requirements, started pre-product of motorcycle battery under the HANDEL brand and variety Amps, and in 2024, mass production will be done. In near future recycling factory, automotive battery factory, lithium-ion and UPS factory and plastic injection factory will separate.
